

HYDRO GROUP PLC

Hydro Group manufactures high quality hazardous environment cables, connectors and penetrators for sub-sea, defence and renewable energy sectors from their state of the art facility in Aberdeen.

Challenges:

- Manufacture a one-off stainless steel manifold and associated connectors for the renewables sector.
- Utilize full capability with precision machining, stainless steel fabrication and assembly work.

Delivery outputs:

- The Woollard & Henry team worked hand-in-hand with Hydro Group staff, always receptive to change and forthcoming with improvements at regular project reviews.
- Stainless fabrication, Precision Machining, NDT – Dye penetration and load testing, leak detection.

CUSTOMER IMPACT

“The project was managed seamlessly by Woollard & Henry from the outset with clearly defined objectives, regular communication and leadership of third party activities. It was delivered on-time and on-budget with nothing too much trouble for their team. They are our approved and preferred supplier in this arena.”

DOUG WHYTE
Managing Director, Hydro Group plc.
